

GJØMLEVATNET

GJØMLEVATNET

Gjømlevatnet.

Not many people would know where this small body of water is located, beside the locals.

All the letters in the name isn't even on your computers keyboard outside of Norway.

But combine this small unknown body of water, with a cold winter day, some snow, fog and a sun that never climbs high in the sky during the winter.

The result is something that belong in a fairytale, with a soft light and a stillness that instills one with a sense of magic.

Cold fog,

Flesberg - Norway, January 2009
